PROFESSIONAL SUMMARY

Technical Professional with 5+ years driving client success across the full sales lifecycle, from pre-sales scoping to post-sales account management. Translates technical requirements into actionable plans and configures workflows to support customer and company goals.

RELEVANT EXPERIENCE

Daikin Applied New York | New York, NY

Jun 2023 - Present

Project Engineer

- Serve as the primary point of contact across 15+ accounts, translating business requirements into actionable deliverables from scoping through delivery.
- Coordinate cross-team dependencies across engineering and logistics, resolving scheduling and procurement risks before they impact delivery.
- Produce client-facing documentation, including proposals, submittals, and RFI responses, keeping revisions to 2-3 cycles per project on average.
- Built a Python-based Proposal Generator, using Claude Code for development and testing, that automates equipment selection imports into client proposal documents, reducing production time per proposal by 75%.

Project Engineer - Estimating

- Delivered cost competitive, margin aligned bids across 50+ projects monthly (over \$6.5M combined value), tying technical configuration choices to client budget and equipment performance goals.
- Built a Python-based Bid Desk Reporting tool that automates consolidation of exported Salesforce data into a biweekly dashboard, providing visibility into total office bid volume organized by stage.
- Partnered with the Applications Team on value-engineered equipment configurations at the bid stage, cutting costs by 10-15% without sacrificing performance.

Major League Baseball | New York, NY

Mar 2023 - Oct 2023

Broadcast Engineer

- Served as primary technical point of contact for replay operations across all 30 MLB franchises, monitoring 3-4 concurrent live broadcasts daily with zero interrupted reviews through proactive pre-game verification.
- Resolved 3-5 technical issues daily for ballpark technicians and Replay Operators using structured documentation and escalation protocols.

Russell Sigler, Inc. | Las Vegas, NV

Jan 2022 - Dec 2022

Technical Engineer

- Presented equipment and system recommendations for HVAC projects exceeding \$500K, shaping bid strategy and competitive positioning.
- Estimated HVAC projects across a portfolio of 30+ commercial accounts, providing technical guidance from bid through scope finalization.
- Partnered with sales and operations to flag scope risks early, reducing rework and delays during execution.

EDUCATION

BS Mechanical Engineering, De La Salle University

May 2020

CERTIFICATIONS

Engineer in Training (EIT), #0T8603

Jun 2021

Lean Six Sigma Yellow Belt, TUM School of Management

Nov 2020
